# Simplified Home Page

## Version 4.4

### Why is the Bank making the change?

Presenting the most commonly used functions at login makes it easier and more efficient for customers to bank online. Simplified branding effectively promotes your financial institution's image and identity.

### How is this valuable to my financial institution?

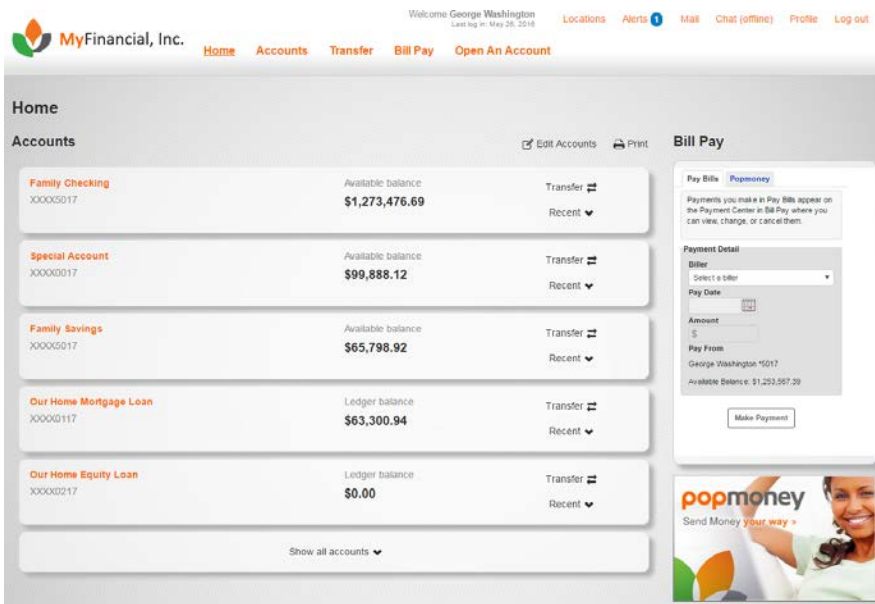

Dedicated home page advertising lets you showcase your brand. Enhanced ease of use means fewer customer calls related to online banking.

### How is this valuable to my customer?

Customers can easily access account balances, transfers, recent transactions and bill payments from the home screen. Common transactions are all made available intuitively on the home screen.

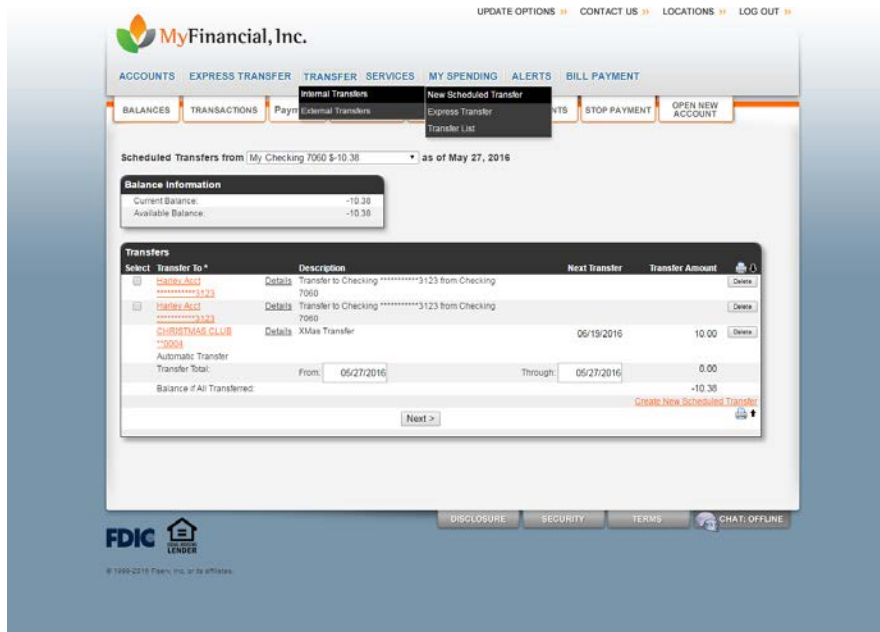

In addition, the presentation of transactions from newest to oldest without having to select current or previous statement makes it easier to review and monitor transaction activity.

## Version 5.1

# Intuitive Navigation

## Version 4.4

**Why is the Bank making the change?**  
By combining functionality, all features including transfers and transaction activity, are now part of a single customer experience.

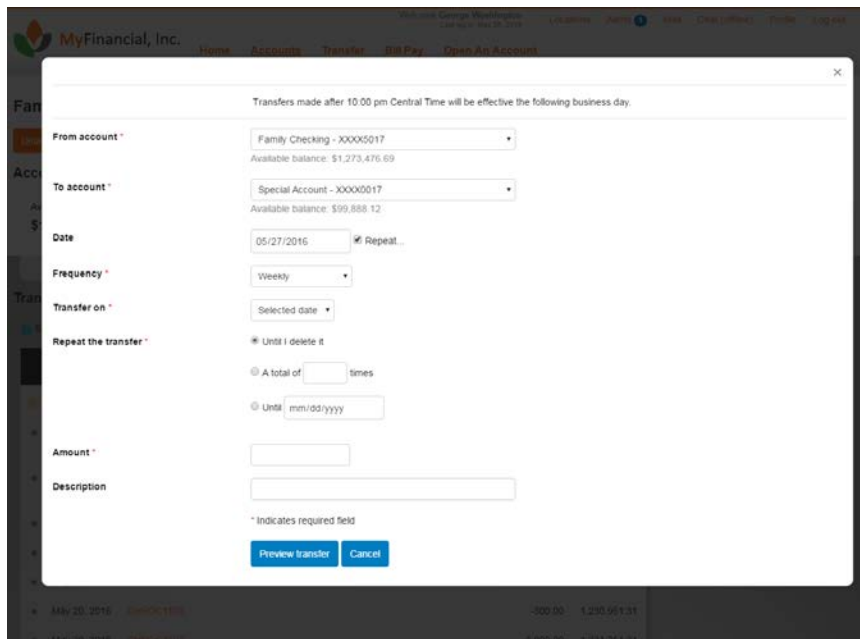

**How is this valuable to my financial institution?**

Fewer customer inquiries for your associates and call center frees those resources for other tasks, improving productivity.

**How is this valuable to my customer?**

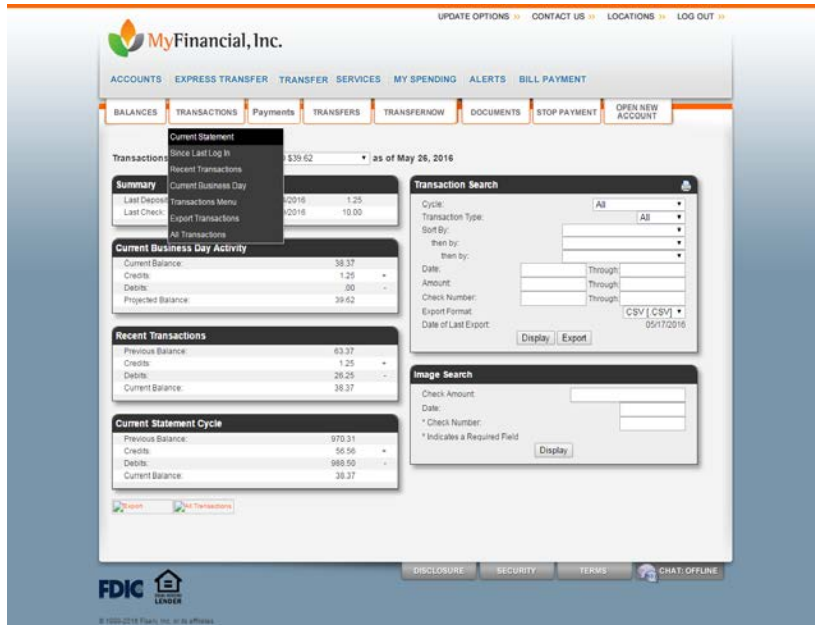

Managing activity from one page makes finding and performing transactions faster and more efficient.

## Version 5.1

# Transaction History Layout

## Version 4.4

### Why is the Bank making the change?

Combining transaction history onto a single page/view makes it easier for customers to track activity.

### How is this valuable to my financial institution?

We're improving your customers' experience by making your online banking application easier to use.

### How is this valuable to my customer?

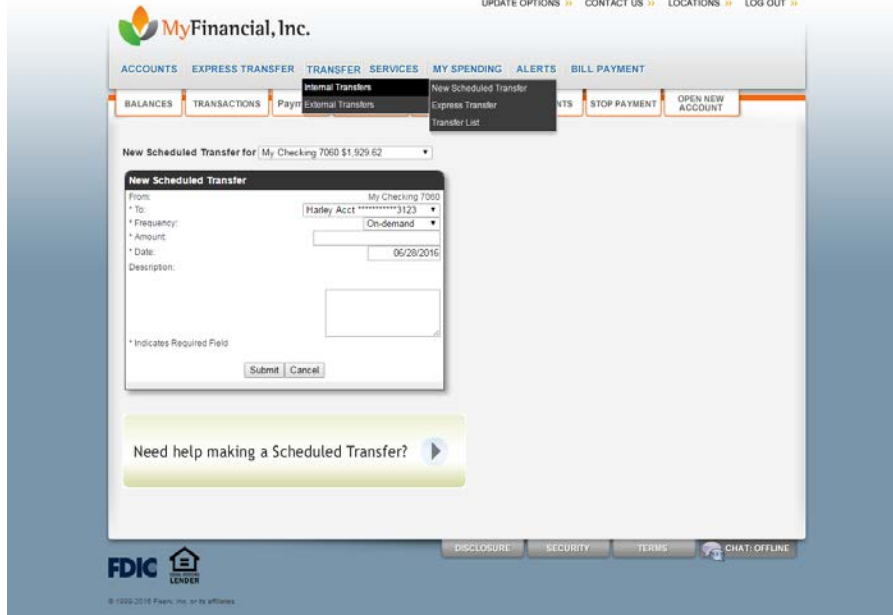

It provides a consolidated source of information for your customers, making it easier to find and view activity.

# Simplified and Improved Transfer Feature

## Version 4.4

### Why is the Bank making the change?

The user interface has been simplified and the express and scheduled transfers have been combined to improve usability and add functionality.

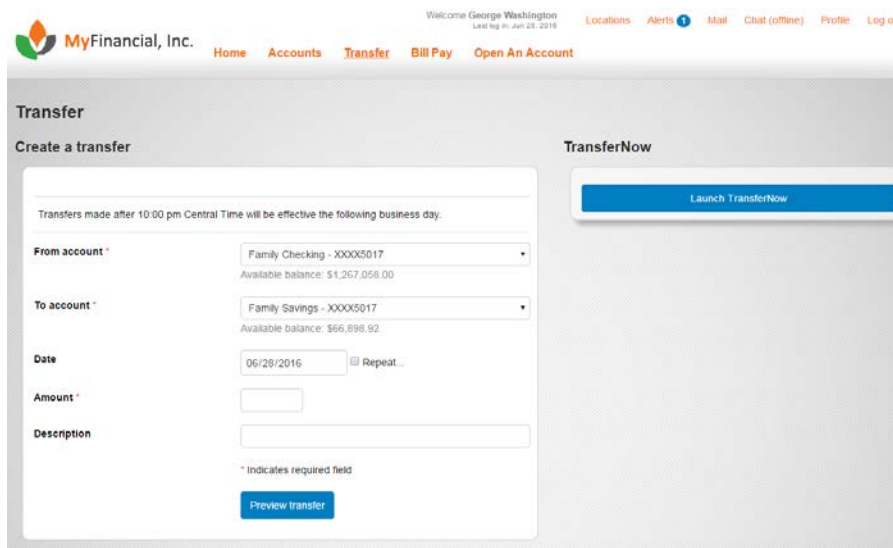

### How is this valuable to my financial institution?

A streamlined transfer process provides a more satisfying user experience for your customers.

### How is this valuable to my customer?

Customers can now access the express and scheduled transfers within the same workflow, enabling quicker initiation of one-time and recurring transfers.

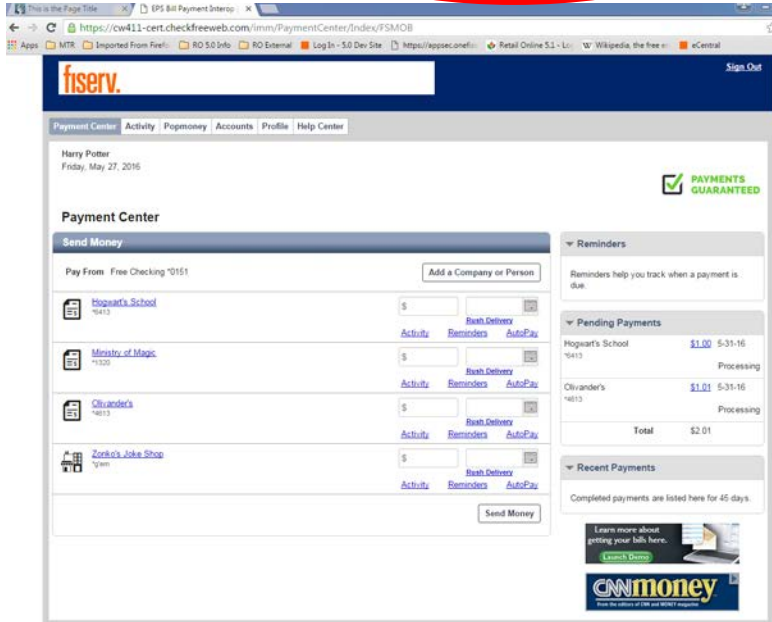

## Version 5.1

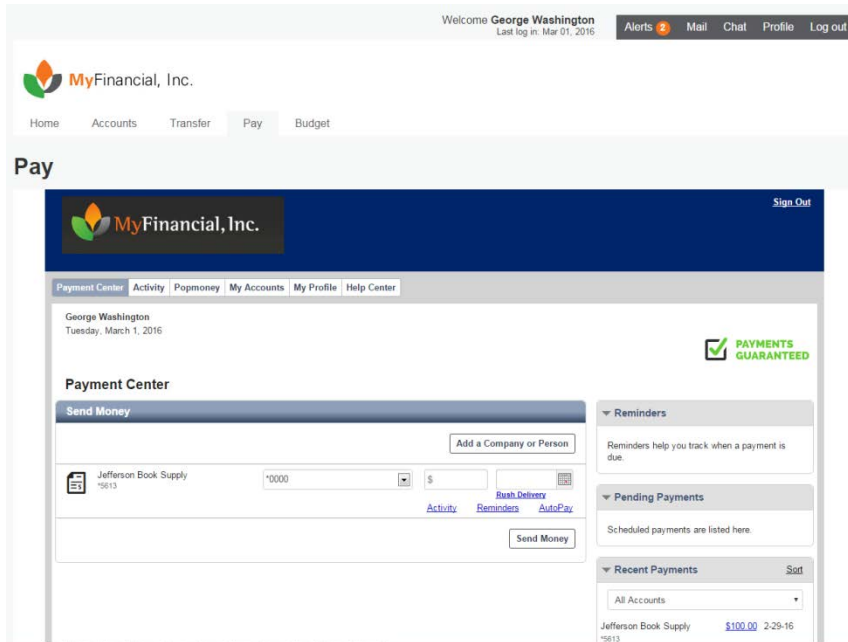

# Bill Pay Integration

## Version 4.4

Bill pay no longer launches in a second browser window

## Version 5.1

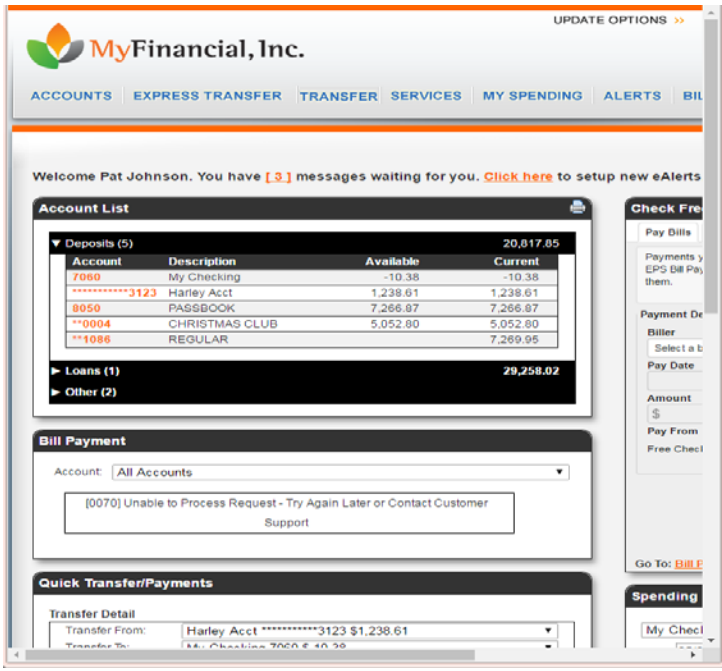

**Why is the Bank making the change?**  
Integration between Fiserv solutions should be seamless and provide the best customer experience possible.

**How is this valuable to my financial institution?**  
Customers that actively pay bills through your online banking site are more loyal, engaged customers of your bank.

**How is this valuable to my customer?**  
Bill pay no longer launches in a second browser window, providing convenience and more security to your customer.

# Responsive Design

## Version 4.4

### Why is the Bank making the change?

Responsive design provides an optimal customer experience on a tablet, phone, desktop or laptop, regardless of screen size, resolution, and orientation.

### How is this valuable to my financial institution?

Match your customers' busy lifestyles and keep all generations of your customers happy.

### How is this valuable to my customer?

Today's customers are on the go. They want to do their banking anytime, anywhere, on any device. Now they can.

## Version 5.1
